

Leading the creation of new smart digital stationery solutions and the adoption of digital ink.

About us

The Digital Stationery Consortium is the premier organization for promoting the accelerated growth of the digital ink ecosystem. Global industries and thought leaders unite with a shared mission to advocate the value of human creativity and to lead the creation of a new market category of smart digital stationery solutions.

Our focus is to establish digital ink as a universal, open and smart content format and a common framework for sharing and collaborating with ideas based on WILL™ digital ink.

Membership

As a member, you are creating the future of the digital pen and ink industry. Membership entitles your company to have a voice in setting formats, practices and processes. There are currently two membership levels: Promoters and Contributors. Both membership types are open to companies from across any business vertical, including:

MOBILE

ENTERPRISE
