

Greetings,

This holiday season is unlike any other, bringing an end to a year unlike any other. Throughout this season, and as we move into a new year, we wish you moments of peace amid the difficulties, as well as connections with family and friends, even if they can't be in person. All over the world, we have spent the year navigating through all kinds of challenges and these have also shown us the importance of digital stationery supporting remote work and education more than ever. Many of our members took action and supported the community with free products and donations.

As most other planned events were cancelled, our founding member Wacom was glad to be able to hold the annual "Connected Ink" in Tokyo, and also enhance it with a 24-hour virtual conference, the motto being "Creative Chaos". Many successful endeavors were presented in the hybrid online and physical event. In case you missed this event, Wacom has set up a YouTube channel featuring a large variety of the creative shows, talks and presentations: <http://bit.ly/2WpZeiy>.

We are proud to have been able to participate, and would like to thank our members for taking part in the panel discussion with a topic that is currently on everyone's mind: "New work and the future of education". If you would like to take a look, you can find the discussion here:

Thinkathon

↪ Digitale Schule

Another project that we were happy to be part of was the Thinkathon: a Hackathon with the topic of digital education, focused on empowering our children to become digital creators! See our dialog introducing the format and presenting the winners:

<https://bit.ly/37FjBj3>.

We are certainly looking forward to more projects like this next year, and will keep you informed.

Until then, Season's Greetings and vigorous health for the New Year!

Best regards,

Heidi Wang
DSC Secretary and Vice President
